What is Ag Unite? A groundbreaking event focused on unifying farmers, ranchers, landowners and agricultural businesses. We each grow, farm, and produce a different commodity but we all have one thing in common: agriculture is our business and our livelihood. Let's join forces and see Ag Unite to take back our ability to be successful in business.

Why should I go? Regulations, laws, and mandates are crippling our ability to be successful. Be part of the plan that will allow agriculture to speak with one voice.

How do I get involved?

Grow Farm Bureau Membership

No other organization in the state is equipped to represent the entire agriculture community like Farm Bureau. Learn what California Farm Bureau is doing for your farms, ranches, and businesses.

Encourage support of Farm PAC

Many well funded interest groups and unions are influencing the decisions in Sacramento.

Agriculture could easily be a stronger political force if contributions to Farm PAC were seen as a regular cost of doing business just like your fuel, fertilizer and feed bill.

Commit to a Legal Defense Fund

There is no single source of funds to defend agriculture. The environmentalists have demonstrated that large sources of money win lawsuits. It's time agriculture started thinking like those that continue to defeat us. If we don't defend agriculture, who will?
